*Bachelor's in Cybernetics, Statistics, and Economic Informatics*  
Completed in 2024

### About Me

My passion lies at the intersection of technology, creativity, and problem-solving. While I've worked on game development projects, my heart lies in web development. Crafting intuitive user interfaces and seamless experiences excites me. Ranging from code to art projects, I have given myself many challenges to train my grit, such as video games, apps, different websites and art prompts.

### Professional Experience

EVIDEN Romania | Frontend Development Internship 2023

Key responsibilities:

- Creating responsive and intuitive user interfaces
- Database creation and management
- Integrating APIs
- Source control version sharing
- Leading a team and communicating efficiently

### Volunteering

2023 - now LSFETc (LIGA ETc), Image Department member, Tiktok Team Coordinator

Key responsibilities:

- Developing original illustrations, graphics and designs for various marketing and advertising materials.
- Crafting visually appealing content for social media platforms such as Instagram, Facebook and Tiktok
- Ensuring consistency in brand messaging and visual identity across all channels.
- Collaborate with the team to conceptualize and create engaging reel-style videos
- Optimising video and static format content
- Writing compelling copy for press releases, announcements and other PR materials.
- Collaborate with the PR team to ensure accurate and impactful communication.
- Contributing to the development of the organization's values and goals.
- Ensuring that visual content aligns with the organization's mission and resonates with the target audience.
